Part C - Pricing Policy

1. POLICY STATEMENT

Council's pricing policy aims to be equitable by recognising people's ability to pay and balancing expectation that some services will be cross-subsidised for the common good of the community.

2. STRATEGIC GOALS

- 2.1 To explore all cost effective opportunities to maximise Council's revenue base.
- 2.2 To ensure consumer's value for money by providing effective and efficient service.
- 2.3 To balance the dependence on rates and grants against other funding sources.
- 2.4 To manage financial risk in a volatile economic climate.
- 2.5 To provide integrated and coordinated services which assist all sections of the community in line with Council's corporate goals.
- 2.6 To develop pricing structures that can be administered simply and inexpensively and be easily understood by the public, and in so doing, recognising that aiming at simplicity can sometimes lead to minor inequities.

3. PRICING POLICY PRINCIPLES

Category 1 - Full Cost Recovery

Recovery of all direct and indirect costs associated with providing a service, including in some cases, making provision for future capital expenditure.

Category 2 - Partial Cost Recovery

Subsidised operations which are of benefit to the community as a whole, and undertaken voluntarily by Council or as a requirement of the Act.

Category 3 - Market Pricing

When Council provides a similar service 'in competition' with other councils or agencies, e.g. saleyard fees, hall hire, etc, where alternative service providers are available. This category also includes prescribed or recommended fees.

Council will not use subsidies to aggressively price others out of the market or compete unfairly.

Category 4 - Disincentive Pricing

Where Council sets a fee structure:

- (i) For non-core activities to encourage customers to seek alternative service providers to provide the service. This applies to activities where Council would prefer not to provide the service in the long term.
- (ii) To encourage people to 'do the right thing' e.g., a scaled tariff that rewards low water consumers, library fines, etc.

Category 5 - Sewerage Service Pricing

- (i) Follows the NSW Office of Water Best Practice Pricing Guideline and is a combination of uniform annual charges, access and usage charges.
- (ii) Collects revenue to fund the sewerage system from ratepayers who actually benefit from availability or use of Council's sewerage system.
- (iii) Ensures Council derives sufficient income to operate the sewerage system and provide for future capital expenditure and debt servicing.
- (iv) Sends appropriate pricing signals, can be administered relatively simply and inexpensively and can be understood by the public.
- (v) No subsidisation between residential and non-residential categories.

Category 6 - Water Supply Service Pricing

- (i) Is based on income gained from 25% of service charges and 75% of usage charges from residential customers, in accordance with the Best Practice Management of Water supply and Sewerage Guidelines issued by the NSW Office of Water August 2007.
- (ii) Collects revenue to fund the water supply system from the people who actually benefit from availability or use of Council's water supply.
- (iii) Ensures Council derives sufficient income to operate the water supply system, irrespective of seasonal fluctuations and provides for capital and debt servicing.
- (iv) Assists in the deferment of capital works.
- (v) Does not impede Council's commitment to greening the district.
- (vi) Can be administered simply and cheaply and be easily understood by the public.

Category 7 - Section 7.11 Contributions Pricing.

To ensure Section 7.11 contributions reflect the costs incurred in providing community facilities/services, open space and recreational facilities, required to meet the additional needs of the community created by new development and in doing so, ensure the local amenity does not diminish.

Category 8 - Set By Statute or Government Department.

Certain fees and charges are set by Regulation, by Ministerial approval or by State or Federal Government pricing policy.

THEATRE - ALL EVENTS

The BMEC Manager will determine appropriate staffing levels for bookings however, there are minimum staffing levels required when in the Theatre to ensure we comply with health and safety requirements:

*All bookings of the Theatre require at least three technical staff members. As well as working on your event, the techs purpose is to also act as venue supervisors in line with health and safety requirements. Technical staff are charged as per the labour section of these fees and charges, in line with BMEC's safety requirements.

*All performance sessions require a Front of House Supervisor from 1.5 hours prior to the performance until front of house areas have been vacated for each performance.

*In general each show has a minimum of 1 paid usher supported by volunteer ushers. BMEC have a team of amazing volunteer ushers who provide support on shows. Should there not be enough volunteer ushers available to usher on your show or event, additional paid ushers may be required to ensure patrons safety, charged at the labour rates within these fees and charges.

BMEC Foyers, unless hired specifically are not part of a venue hire of the Theatre.

*For any shows with smoke, haze or pyrotechnics, BMEC have to isolate the fire detection system to ensure the alarm isn't triggered by these stage effects. As such, a fire warden is required, charged per the labour rates in this document on any events that contain smoke, haze or pyrotechnics.

Notice must be given in advance for the use of pyrotechnics, smoke and haze machines in order to roster a fire warden if required. Labour cost to be determined by venue management.

*The period of the venue hire chargeable is determined as from first access, until the venue is fully vacated, including any props, costumes or equipment. BMEC are unable to store items. Earlier access would be subject to venue hire and staffing fees.
