## Introduction

This directory has been compiled to assist home owners of older buildings to locate relevant trades people, services and supplies for carrying out restoration and maintenance work on their properties.

The directory does not endorse the trades people, services or supplies. The list has been compiled from a former list prepared by the former Bathurst City Council in 1999 and from quotes and invoices supplied for projects under the Bathurst Regional Heritage Fund.

The list will be subject to change as trades people, services and suppliers will be added or deleted, as requested. If your trade, service, or supplies is not included within this directory and you would like to be included, contact the Environmental, Planning and Building Services Department of Council. Council would also appreciate feedback in terms of corrections to any of the information supplied.

## Heritage Services offered by Bathurst Regional Council

Over the years the former Bathurst City Council and Evans Shire Council have supported property owners of older buildings and heritage items. Since the formation of the Bathurst Regional Council in 2004, the role of local government in supporting heritage has increased. The major heritage services offered by Bathurst Regional Council are listed below.

### Heritage Advisory Service

Council offers the services of a Heritage Advisor to property owners, free of charge, who want advice on proposed developments, change of use and restoration and maintenance works. Funding from the Bathurst Regional Council and the Heritage Branch, Department of Planning, allows for fortnightly visits from Council's Heritage Advisor. Appointments with the Heritage Advisor can be made through Council's Senior Strategic Planner.

### Local Heritage Fund

Council, with the support of the NSW Office of Environment and Heritage, offers small grants to property owners for maintenance and conservation works on older buildings in the local government area. The fund operates on an annual basis and grants of up to \$5000 are available. All older properties are eligible to apply for funding, not just listed heritage items.

### Interpretation Fund

Council offers a small grant to assist local property owners, local heritage trusts/organisations or community groups to undertake projects to interpret and promote the region's history and to support the ongoing management of heritage properties. The fund operates on an annual basis and grants of up to \$5000 are available.

### Main Street Improvement Fund

Council provides a Main Street Improvement Fund to encourage building owners and tenants to undertake the recommendations of the Bathurst CBD Main Street Study. The fund operates on an annual basis and grants of up to \$10,000 are available.  
Senior Strategic Planner (Heritage)

## Senior Heritage Planner

Bathurst Regional Council created a position for a strategic planner whose primary duties include the ongoing management of Council's role as a heritage manager within the region, for both public and private properties. In addition to the management of the heritage fund and heritage advisory service, this role is a first point of contact for the public with heritage related enquiries.

The position is also responsible for the implementation of Council's Heritage Strategy which includes numerous heritage projects. A key aim of this position is to assist owners of older places within the region.
