Blue-green algae Red Alert for Chifley Dam

A Red Alert warning (high alert) has been issued for blue-green algae at Chifley Dam as of 3 January 2020. A Red Alert level warning indicates that people should not undertake recreational activities at Chifley Dam where they may come into direct contact with the water, such as swimming, as well as domestic use including showering and washing. Contact with the water may also pose a threat to livestock and pets. Chifley Dam is closed for all water related activities.

Algal results from the Macquarie River at Bathurst indicates that algal levels are at low levels and Council’s Water Filtration Plant at Bathurst continues to produce water that is safe to drink. For more information call Council on 6333 6111 or visit Council’s website.
